# Mobiderm Autofit lower limb

Main product features

*January 2017*

# MOBIDERM AUTOFIT

## NEW IN 2017 : Launch of the lower limb version

### ➤ Range : 2 models proposed

- Sock (knee high)
- Thigh high stocking (full leg)
- Standard equivalence to the existing made-to-measure Mobiderm models

### ➤ Technical choices

- Product adapted both to right/left limb => item codes optimisation
- 4 lengths (vs. 2 for the existing upper limb) => to match a larger patient size range and a mixt population (M/W concerned by lower limb LO)
- 4 sizes (acc. to circumferences), each one with a wider fitting possibility => to best answer the morphology variation of each patient
- New velcro quality & associated velvet material => reinforced hold!

# MOBIDERM AUTOFIT

## NEW IN 2017 : Launch of the lower limb version

Leg part: Mobiderm big blocks

Foot part : Mobiderm small blocks

**Semi open garment:**  
Easy to put on,  
easy to take off

**Anti slip material:** to  
avoid slipping on  
the floor

**Fitting marks:** precision and control

**New Velcro straps & velvet material :**  
reinforced hold!  
**Double raw of straps (to fold forward):**  
wider fitting range/ avoids discomfort of  
the straps along the contralateral limb
